Montclair

#### A BRIEF HISTORY

Montclair was first settled in 1678 by old stock Americans, who migrated from Branford, Guilford, Milford and New Haven, Conn. At this time the section in which Montclair is located was known as East Jersey, and Upper Montclair was called Speertown.

It is situated about 14 miles from New York City on the east side of Watchung Mountain.

In 1856 the first railroad was started and this road is now known as the D., L. & W. R. R.

In 1867 another railroad was opened up and is called the Erie at the present time.

Today these two railroads, with their 114 trains daily, serve more than 6,000 commuters.

During the early days, the chief industry was fur hat making.

On April 15, 1868, Montclair was incorporated as a town, and in 1882 the first fire department, known as H. & L. Co. No. 1, was organized. The Montclair Fire Department was organized in 1885.

In 1904 a beautiful library was presented to the town by Andrew Carnegie. Today this library with its branches contain 85,577 volumes.

With its abundance of shade trees lining its well-kept streets, Montclair is truly a residential community.

#### "What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

## About City Directory Circulation

*The true value of advertising circulation is circulation consulted.*

*To be exact* by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

*To be conservative* we will eliminate the sixty Sundays and Holidays when no tests were made.

*For every thousand directories* sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = 1,067,500$$

# MONTCLAIR NUMERICAL DIRECTORY

## EXPLANATORY NOTES

The streets are arranged alphabetically with their description, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."  
The word "vacant" after a number signifies that the house, store or office at that number was vacant when the canvass was made.

△ Denotes householders and places of business having telephones.  
"Right even" after street description indicates even numbers on right side of street.

The symbol @ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

## "What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.
